PROFILE

Diploma in Information Technology student at Politeknik Ungku Omar (CGPA: 3.61) with hands-on experience in full-stack web applications, Firebase cloud services, and systems analysis. Co-developing an award-winning management platform for a real construction SME, translating business needs into public-facing and internal workflows. Seeking an internship in software engineering, cloud engineering, or solutions engineering.

TECHNICAL SKILLS

Programming: Java, Python, C++, JavaScript, Kotlin, SQL
Web development: HTML5, CSS3, JavaScript; React / Vue.js
Cloud & backend: Firebase Authentication, Cloud Firestore, Cloud Functions, Firebase Storage, Firebase Hosting
Engineering & design: Git, GitHub, Agile/Scrum, Systems Analysis & Design, Figma
Additional exposure: Mobile development, Business Intelligence, server administration

SELECTED PROJECTS

AutoConstruct Cloud-Based Construction Project Management
Final Year Project · Team of 3 · 2026

- Co-developing a web platform for AB BIZ ONE, a construction and renovation SME, to streamline project, client, and quotation workflows.
- Designed around a public services/gallery/quotation portal and internal modules for project tracking, workforce scheduling, inventory alerts, CRM, and PDF quotations/invoices.
- Worked with Firebase Authentication, Firestore, Storage, Cloud Functions, and Hosting; collaborated through Git/GitHub and Agile sprint cycles.

Miss-Compete Competition Discovery Mobile App
Personal / academic project · MVP testing

- Developing a mobile MVP that centralizes college competition announcements and helps students discover and track opportunities.

AWARDS & LEADERSHIP

- **APEX 2026** — Champion, Social Sciences Category, Applied Project Excellence Exhibition (AutoConstruct).
- **ICE II JTMK 2026** — 1st Place, Software & Application Development Track (AutoConstruct).
- **SIC-16 2026** — Gold Medal, Category B: Novice Innovation, UiTM Perlis (AutoConstruct).
- Co-organized Kiro AI Hackathon @ PUO and krackeddevs Build Day: Build & Ship; supported participant coordination, briefings, and hands-on building activities.

EDUCATION

Politeknik Ungku Omar (PUO) Diploma in Information Technology
2024–Present · CGPA: 3.61
Relevant coursework: Cloud Computing, Mobile Application Development, Web Development, Server Administration, Business Intelligence, Systems Analysis & Design.

EXPERIENCE

Nando's TRX Part-Time Server
Kuala Lumpur · 5 months
Delivered customer service in a fast-paced environment, maintaining order accuracy and collaborating with front-of-house colleagues while balancing academic responsibilities.
